Connections

The screenshot displays the Apache Airflow web interface at the URL `localhost:8080/connection/add`. The interface shows the 'Add Connection' form, which is used to add a new connection to the Airflow environment. The form includes the following fields:

- Connection Id ***: `marketing_db_conn`
- Connection Type ***: `Postgres`
- Description**: (empty)
- Host**: `marketing-db`
- Database**: `marketing_db`
- Login**: `airflow`
- Password**: `*****`
- Port**: `5432`

The form also includes a 'Connection Type missing? Make sure you've installed the corresponding Airflow Provider Package.' message. The interface also includes a 'Clear Filters' button and a 'Mark state as...' button.

Database

```
# psql -U airflow marketing_db
psql (13.13 (Debian 13.13-1.pgdg120+1))
Type "help" for help.
```

```
marketing_db=# SELECT * FROM images_data;
```
